

CSR

The most precious resources are our employees. For this reason, even before the launch of our plant we have given life to an special program of “Corporate Social Responsibility” which aims to provide to our employees and their families the best living work-life conditions possible especially in a developing country such as India.

The CSR program covers different areas: work conditions, welfare, surveillance and medical assistance; we dedicate great attention to our employees’s worklife balance by providing them high quality amenities and accommodations for their families within our company’s compound.

Our purpose is simple as much as essential in nature: we want to create the best possible working-life conditions allowing our employees to live a dignified and satisfying life both inside and outside the workplace.

We are proud of the standards that we have achieved and we hope that, following our example, more companies will commit to improve the working and living conditions of employees and their families.

THE G-BATH EXPERIENCE.
BUILT TO MAKE THE BATHROOMS TO
MOST STUNNING STATEMENT.

- Delivering products that are functional yet promise great aesthetics at an easy.
- Supporting affordable and sustainable housing in India.
- Rapidly expanded its foot print in tier-II, tier-III & tier IV cities across India.
- Provides the best option and opportunity to standard quality segment to standard quality products.
- Offers complete bathroom solutions covering wide range of design options in bath fittings, sanitaryware, and bathroom accessories.

PRODUCTION UNIT

The G-BATH Bath experience is built on extra ordinary design, is powered by flawless functionality and is driven by reliable customer service. Created with the philosophy that the bathroom is the most important part of a home, G-BATH bath products are crafted to create a stunning statement based on efficient functionality. Style and simplicity combine to create a bathroom sensation that is as beautiful as it is long-lasting.

“We always aim to the highest standards
but we also allow for evolution and new
valuable ideas.”

We're relentlessly focused on reaching outstanding goals in the field of sintered stone slabs and to stay on our **commitment to excellence in manufacturing high quality slabs and large size tiles.**

To us excellence comes from passion and experience. **Passion and experience in mastering creativity, design, technology and process management.**

We always aim to the highest standards but we also allow for evolution and new valuable ideas. Italian creativity is in our soul: G-BATH products are defined by quality, high standard and design. Materials blossom under the genius mind of Italian R&D and designer's team.

Never content to settle for the status quo, we also focus on a consulting approach cater to find new advanced solutions to our demanding clients.

Nature is an endless source of inspiration just as man-made materials are canvas for new perspectives. Both of these dimensions are stunning, textural, colorful and versatile mediums for designing and creating unique sintered solutions.

INDEX

LEADING THE WAY INTO HONORED WITH QUALITY BRAND

Luxury knows no limit. It is not confined to the wheels we drive or to our drawing rooms and bedrooms. It has also reached the bathrooms. Today, people want to surround themselves with luxury every moment. G-BATH is fuel to their desire. By offering world-class bath amenities, G-BATH is feeding the souls of its customers with luxury. G-BATH was conceived with a vision to infuse class and finesse in every aspect of the lives of people. Bathrooms, which are often not subjected to luxury, are now seen in a new light and the credit goes to G-BATH.

AN OVERVIEW

We, at G-BATH, offer complete bathroom solutions that are simply class apart. We have infused mystique in our products and have given a glamorous twist to the simple bath spaces. All our products, be it a washbasin or a toilet bowl or Urinals, define grandeur. In terms of quality, we are par excellence. All the products manufactured at G-BATH under our name are crafted with fine measures. We use the finest quality raw materials that are thoroughly scrutinized and certified. They are produced as per the strict ISO standard. We believe that where all the major aspects of our lives are governed by technology, why leave bathrooms behind? Hence, we bring in use, the latest technologies to bring together all these products. The final result, i.e., our bathroom products, displays the use of advanced German technology,

Our **Clientele**

Our client base is not restricted to one nation. We extend our services to every corner of this world. There are several countries that use our products and unmatched services. We export our superlative products to more than Twenty countries, Hundreds and thousands of bathrooms. South European countries and African countries are adorned with G-BATH products. We have separate facilities to govern the export sector. Our team takes care of export and related documentation so that our clients can relish a luxury experience in their bathrooms.

Mission

Our mission is to extend our services to the classes and the masses. We commenced with a mission to imbue splendour in the bathrooms of a common man and so far, We have succeeded. We still embark on a mission to stretch out our services to reach every household. We are adamant at giving a lavish bathroom experience to every single person in the world.

Vision

In the coming few years, We see ourselves as the leading manufacturer of sanitaryware and allied products. We are a leading name in the tile industry and want to take the legacy forward for hundreds of years. We see ourselves as curators of elite bathroom spaces for years to come. "Luxury will be always around, No matter what happens in the world carolina herrera." G-BATH has made it possible for you to surround yourself with finesse and luxury, Even when you are in the precinct of your bathroom.

From The Chairman Desk

Integrity is Integral Ensuring heritage of ethical standards such as conduct of business, honesty, loyalty and core values, miss presentations or regulations in business transaction must be avoided. Its applicable to within the organization as well as relationship with other parties.

At G-BATH, We ensure you an experience enriched with luxurious lifestyle

WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All Watero standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

RIM-LESS TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design. Watero's rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

GO-GREEN

Respect for the environment

Watero Sanitaryware's sensitivity to the world's ecological emergency has prompted it to place the environment at the heart of its economic, social and industrial policies.

ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

WASHBASIN FORMS

Washbasins can be used with a pedestal as well as being wall-hung. Basins suitable for use with a counter top can be fitted in three alternative ways:

FISCHER

A simple, elegant installation system for use with wall-hung WCs. The fixings are hidden from sight by the use of internal ABS sleeves, creating a clean, smooth design.

Watero Sanitaryware is a sustainable company with regards to its industrial role and relationship with the surrounding territory. The production facility integrates harmoniously with the place where nature is considered an asset and a heritage to be protected and valued. This desire is manifested in the continuous implementation of new technology that allows using clean energy, and also in the different design options that allow the company to have less impact on the environment.

RIMLESS-DESIGN

TOILET BOWL WITHOUT AN EDGE

The rimless design is standard for all special toilets.
It means that the toilet bowls do not have any difficult-to-reach
places in which dirt and bacteria can accumulate.
This makes it possible to clean the toilet far more quickly, easily
and thoroughly. WATERO has produced rimless toilet bowls.

PULSE TANKLESS WALL HUNG TOILET

A great revolution for the wall hung toilet ! It is the time to remove the concealed cistern now, from now on no need to worry about how to repair when concealed cistern has problem. Tankless wall hung toilet is more convenience and more economical for the consumers , also with Pulse technology may enhance the flushing effect largely so that can be more clean and more water saving.

Six advantages:

1. Easy to install and repair.

2. Installation dimensions and outlet same as the traditional normal wall hung toilet, if the concealed cistern have problem, can replace the traditional normal wall hung toilet with our pulse tankless wall hung toilet directly.

3. No need power supply, no need recharging, just use double A battery which available in any market.

4. 4 pcs of battery is enough to use for 1.5 year in 4 people family.
5. No tools required to change the battery.

6. Workable at water pressure 0.1 MPA minimum, suitable for all the low water pressure countries.

 One button rinse

From economical aspect, perfectly solve the painful difficulty of wall hung toilet concealed cistern installation.

More convenience, More economic, More clean, More water Saving.

INNOVATION & CRAFTSMANSHIP

Continuous innovation and craftsmanship are integral part of the vision with which we walked on the path of entrepreneurship. We never believe in remaining stuck to the age-old processes, technologies and designs. We look for continuous innovation and creativity, which have become the keys to our success.

We at . paints India bring to you best-in-class paints for interior/exterior walls, wood & metal surfaces and specialists products like waterproofing for your home. Our emphasis on quality and performance ensure that our products are superior in both protection & aesthetics. We have been amongst the first in the Indian paint industry to pioneer responsible manufacturing, our products are free from any added lead, mercury or chromium compounds hence are low on VOC & odour

PAINTING TIPS

- Ensure surfaces are free of all dirt before painting work starts
- Ensure that the floor, furniture, doors, windows & switches are masked properly
- Rectify all seepage before painting
- Apply POP and putty to remove undulations on the walls
- Ensure that all small cracks on the surface are filled up with fillers & sanded off
- Allow proper drying time to each coat of putty, primer & top coat, before next coat is applied
- For correct drying time refer to product data sheets

**A
FRESH
COAT FOR
A FRESH
START**

- Wide range of patterns to suit all décor types
- High open time for better application
- Ready-to-use, roller/brush applied emulsion

Installation Guidelines.

G-BATHWARE continually interacts with consumers and strives to make its products consumer-friendly. The company's trained staff and executives maintain a direct interface with consumers, educating them about product quality, convenience and maintenance. . G-BATHWARE also believes that consumers must get the best out of its products. It has evolved a set of consumer guidelines, which if followed, ensure optimum and trouble-free performance with enhanced durability of . BATHWARE products For years to come.

During Installation

- Use a 25 mm pipeline instead of 20 mm for optimal water flow. As far as possible, lay the pipelines straight and vertical
- Keep the number of bends in the pipelines to a minimum to maintain adequate water pressure.
All supply lines must have vent pipes, which prevent vacuum formation and ensure that water flows smoothly.
- Maintain a centre-to-centre distance of 165 mm for both Hot and Cold inlets on all wall-mounted fixtures. This ensures a fuss-free, easy installation of the wall mixers.
- Place the outlet point in the overhead tank at least 2.5 cm above the ground level of the tank. This prevents the flow of foreign particles, sand, etc., into the water supply and the fittings, and prevents possible damage to working parts.

Post Installation

- Cover the tap polypacks before or after their installation until they are ready for actual use to protect the fine finish from dirt, stains and other damage.
- Do not use harsh cleaning agents containing abrasives and acids. Instead, use a soft sponge or wet cloth with soapy water/diluted vinegar to protect the colour finish.
- Clean the aerators at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse thoroughly with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign particles. To prevent any foreign material from passing through the tap, use a mesh or jali.

Maintenance Guide

Dos

- Clean the fitting with just a little soap or mild detergent (such as dish washingsoap) and a sort dampened sponge or cloth. Then simply rinse offand wipe dry. You can prevent lime scale by drying the fitting after each use.
- Always test your cleaning solution on an inconspicuous area on the product before applying on the entire surrace.
- The Ideal cleaning technique is to always blot dry any water from metalsurfaces. Allowing water to evaporate on metal will form water deposits.
- It is Important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your faucet looking beautiful and spotless.

DON'TS

- Do not use any abrasive sponges or scouring agents for cleaning.
- We also advise against the use of cleaning agents containing ammonia, bleach,acids, waxes, alcohol, solvents or other products not recommended for chrome.Most toilet cleaning products have high acidic content which can damage the chrome finish, leaving it dull and scratched; hence they should be strictly avoided

Claims and Repairs

To submit and/or avail a warranty claim, please contact Customer Service at bathsolutions@gmbathware .com. Telephonic enquiries shall be directed to GMBATHWARE helpline toll free number at 1800-599-55999 between 10.00 Hrs. and 18.00 Hrs: during Monday to Saturday, excluding Sunday, Public and National holidays.

Warranty Coverage

- The warranty period is not renewed or extended on supply of the spare parts during the warranty. The company will at sole discretion, repair or replace any defective component or part of product with or without cost.
- The warranty shall commence on the date that the consumer telephonically lodges his warranty with the company by contacting 1800-599-55999 and furnishing all the purchase and personal details requested by the company ("the commencement date"), with in 15 days of purchase.
- The Company or its Authorized Service Franchisee solely can service/repair the product.
- The warranty becomes null and void if installation is not done by aqualified and experienced technician and/or as per the installation procedure laid down by the Company.
- Hoses, rubber parts, plastic parts and consumables are not included in warranty.
- This warranty is applicable only if the customer shows proof of purchase or the warranty registration number mentioned in the -warranty card.
- This warranty will cover only manufacturing defects of the product and will not cover any defects arising out of factors out of control of the company like insufficient water pressure, high water impurities / hardness, breakage of parts due to excessive force etc. In no event shall the liability of the company exceed the purchase price of the product. Improper care and cleaning will void the warranty. This is an GMBATHWARE Faucet exclusive written warranty. Contact us at: 1800-599-55999 or bathsolutions@gmbathware.com

Warranty Details

1. At the time of registration, please keep the following information ready, as this Will help GMBATHWARE ("Company") to log your Customer warranty. After successfully lodging your warranty, you will be issued a UWIN (Unique Warranty Identification Number). Please mention the said UWIN in all of your communication regarding the customer warranty.
2. Details required: Customer's Full Name, Address, Product.
3. Please retain your original GST invoice along with a copy of this document for the duration of the warranty period. Please note that your original GSTinvoice would be required along with this warranty document to process claims pertaining to your customer warranty.
4. Should you ever experience a problem with the product or have any questions regarding the warranty, please call on toll free number 1800-599-55999 and keep this booklet with your unique customer warranty identification number and invoice at hand
